

SKILLS

JavaScript, React, Redux, JQuery, Ruby, Ruby on Rails, D3, RSpec, Git, SQL, HTML, CSS, SCSS

PROJECTS

Artsy | *(React, Redux, Rails 5, Webpack, PostgreSQL, HTML, SCSS, AWS, Heroku)*

[live](#) | [github](#)

An Etsy clone - Ecommerce site for handmade goods

- Built an Etsy clone using a modern web development stack of Rails for API backend, React, Redux for frontend, and Heroku for scalable hosting.
- Implemented User Authentication using session tokens and BCrypt encryption, ensuring user information is secure.
- Integrated AWS S3 to store uploaded images to static storage, reducing server load and improving performance.
- Created product / review features allowing users to create product listings and leave reviews.
- Built custom React image gallery component that allows users to browse full size versions of thumbnail images.

Shopfluencing | *(JavaScript, D3.js, HTML, CSS)*

[live](#) | [github](#)

A data visualization that shows which social media platform has the greatest influence on online shopping decisions by different demographics

- Loaded CSV dataset of 10,000 records into JSON to create pie and bar charts using D3.
- Integrated sidebar navigation to allow users to easily explore how social media platforms affect shopping behavior across 22 different segments, creating an interactive user friendly experience.

EXPERIENCE

Fabric Purchasing Assistant

Rag & Bone

Oct 2018 - Feb 2019

- Responsible for men/women/denim fabric production orders about 70,000yds, which cost approximately 7 millions across 200 different styles per season
- Maintained Purchase Order Work In Progress and communication with mills to ensure fabric delivery is on time
- Used D365/WIN fashion [ERP] to order seasonal lining/fusible requirements across 200 different styles for overseas and domestic per season
- Corresponded daily with vendors to negotiate pricing/payment terms/exmill to meet production delivery dates
- Reviewed and advised bulk approval comments to mills and ensure the fabrics are meeting our standard for handfeel/ quality and color
- Tracked and maintained fabric inventory to design and merchandising to reduce inventory level for each season

Fabric Developing/ Production Associate

Itochu Prominent

Aug 2017 - Oct 2018

- Ensured 500 different fabrics meet standard requirements for quality and color in every season
- Created fabric standard library for 10 different brands (Vince Camuto, Perry Ellis, Original Penguin, etc)
- Communicated with customers, sales and production teams to identify and resolve fabric production issues such as delays, minimums, lead times, and cost issues and followed up with mills daily to manage shipments from overseas to ensure on time development
- Negotiated costs with vendors and leverage partnerships to guarantee merchandise at best value and verified accuracy of sample invoices and forecasted each brand's monthly development budgets

EDUCATION

Parsons The New School For Design- BBA, *Strategic Design and Management* | 2013-2017

AppAcademy - 1000-hour immersive full-stack web development intensive with <3% acceptance rate | Summer 2019
